Regional Qualifier Advancement

General Information

We will accept alternates for any class not pre-entered to 41 riders. If a class pre-enters with over 41 riders, we will accept alternates to 82 riders. We will not accept alternates to make any class over 41 riders that does not come already pre-registered over that number.

All alternates must attend rider registration and register in each class in which the rider is an alternate.

Alternates who did not pre-enter may post-enter at the event by completing the post-entry form and paying the applicable MX Sports fee(s) and entry fee(s).

Alternates will be placed based upon a power-ranking calculated by the number of riders at the qualifier level, i.e., alternates from qualifiers with the most riders will be given priority placement. In other words, a withdrawn rider will not necessarily be replaced by an alternate from the same qualifier as the withdrawn rider.

Once a class is full, no further Alternates can be placed unless a seeded rider withdraws from the program prior to the start of the first moto of that class. This means that even if a gate is empty on the starting line of the first moto, we still cannot place an Alternate in that position. Once a rider earns a gate position, it cannot be given to an Alternate without the rider's consent, even if the rider fails to race the first moto. A rider may in fact miss the first moto but race the 2nd and 3rd motos. After the first moto of a class is run, no Alternates can be placed in that class.
